

MBA IN ENERGY MANAGEMENT

The global energy sector will continue to pose many challenges to the business world. Although renewable forms of energy, such as solar or wind, are replacing traditional sources of gas and oil, oil and gas are still key players with new energy entrants in the market. At the same time, demand for energy may be on the decline from traditional markets, but is in rising demand from other markets.

The CIM (BVI) MBA in Energy Management will give you the expertise and tools to deal with the current and future challenges of the global energy sector. It will prepare you for a career in Energy Management and give you the tools to become an efficient, forward-thinking, and informed leader.

Core Courses

1. ORGANISATIONAL BEHAVIOUR
2. BUSINESS POLICY & STRATEGY
3. RESEARCH METHODS

Electives

(from which you will be assigned between 4 and 7)

1. RENEWABLE ENERGY
2. ENERGY MANAGEMENT IN BUSINESS
3. OIL & GAS ENERGY LAW
4. FINANCIAL MANAGEMENT
5. EXECUTIVE SKILLS
6. OIL & GAS ENERGY SAFETY AND RISK
